

CAPS NETWORK

The wide spectrum of investment
programs with different profitable
strategies.

INTRODUCTION

CAPS platform gives you the opportunity to earn interest every day, exchange digital assets and receive rewards for your marketing activities.

CAPS technology connects the financial marketplace for users, multinational financial services corporations and payment systems, reaching consumers, businesses, merchants and issuers.

ABOUT US

As the world of digital payments are vastly expanding and growing, the demand for a utility to use them becomes more apparent. With cryptocurrency, there has been a revolution in the way we perform transfers, make purchases, or pay for various services all over the internet. However, no matter what cryptocurrencies are, making payments with them will always involve additional complexities related to legal, regulatory and technical aspects, which so far cannot be solved without a centralized framework as a base in the digital payment system.

We strive to change the payment approach that no other entity has managed to do yet. Behind the CAPS project are a group of payment specialists and pioneers with decades of combined experience in the payment and retail POS & commerce industries. At the end product envisioned by CAPS is digital payment ecosystem that is ultra-efficient for investors, consumers, and businesses.

WHY CHOOSE CAPS?

Availability Decision

CAPS offers affordable solutions to digital assets in real-time. Manage your collateral with a user-friendly and intuitive platform.

Automatic Exchange

Automatic exchange with low commissions and industry standards along with deep liquidity. Exchange digital assets leveraging the seamless features of a traditional exchange platform in a peer-to-peer, transparent architecture.

Security

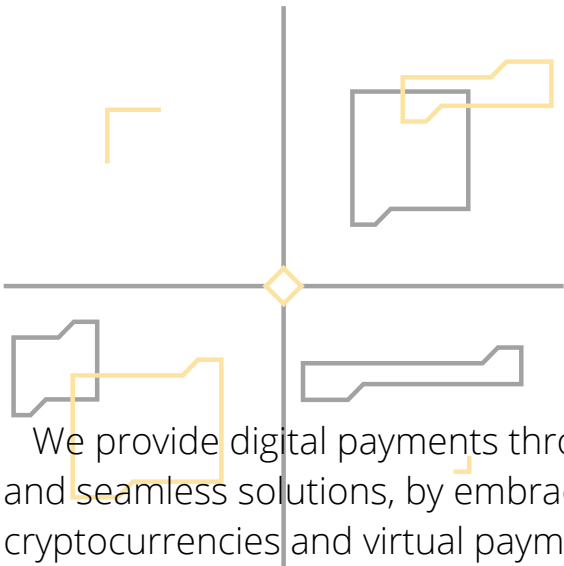

CAPS provides an intuitive, low-cost, and secure way of setting your account and following the trading patterns of expert investors.

Network

CAPS provides a transparent way to settle digital assets on its exchange platform by connecting asset managers to investors in peer-to-peer infrastructure.

We provide digital payments through intelligent and seamless solutions, by embracing cryptocurrencies and virtual payment systems into a single digital payment system.

Web3 is the next generation of the network. Built on the blockchain, it revolutionizes how the world exchanges value. Airmode is Web3 middleware that connects web API directly to any blockchain application. The next-generation technology to access off-data. Airmode is leading the movement from legacy third-party networks to first-party solutions that deliver more security, efficiency, and data-source transparency. Lightweight, first-party data feeds that reduce cost and scale data access for Web3. Developers to connect Web3 applications to continuously updated streams of off-data, such as the latest cryptocurrency and commodities prices. Web3 is the biggest growth opportunity for businesses since the world wide web. But it's been difficult for traditional businesses to access.

COMPANY SERVICE

PROPOSED SOLUTION

To address the pain points of token founders, investors, consumers, and businesses, we have come up with a complete solution with the following characteristics:

- Provide alternative options to traditional payments such as Visa, MasterCard, and PayPal.
 - Decentralised payments with zero single point of failures.
 - Cross border transfers without the fear of third party monitoring.
 - Fast, cheap, and reliable – cost pennies to transfer no matter the amount.
- 

BENEFITS FOR CONSUMERS / PAYERS

- Consumers can make cross-border fund transfers without paying hefty transfer fees or exchange rates to a third party and the transfer happens immediately.*
- Consumers can now shop online securely without having to worry about credit card information getting stolen.*
- Make payments and purchases while being protected from third party tracking.*

BENEFITS FOR MERCHANTS / BUSINESSES

- *Save on merchant fees with each transaction.*
- *Merchants get to focus on sales without having to worry about credit card fraud and chargeback.*
- *Easily integrate crypto payments into existing ERP or ecommerce websites.*
- *Creates options to opt for the additional easy-to-manage accounting software to manage sales reports and tax filing.*

Low flow Medium flow

- minimal 10\$
- maximal 1999\$

- minimal 2000\$
- maximal 4999\$

1.5% daily

100 DAYS = 150%

2% daily

100 DAYS = 200%

High flow

- minimal 5000\$
- maximal 100000\$

3% daily

100 DAYS = 300%

Uni flow

- minimal 10\$
- maximal 100000\$

1400% ROI

200 DAYS = 1400%

PROPOSALS

Airmode is a Web3 middleware that connects the Web API directly to the blockchain application. Based on this, CAPS introduces four offerings, with the ability to invest in BNB, BTC, BUSD, ETH, LTC, TRX, USDC, USDT and Perfect Money USD.

MARKETING

Through our marketing program, we aim to encourage wider adoption of CAPS by rewarding users for their recommendations.

The three referral programs (Base, Advanced, Progressive) will each have six lines and come into effect when certain conditions (more details in the table below).

Base is active directly after opening a deposit in the account.

Advanced takes effect after achieving the turnover on the first line of \$35.000.

Progressive takes effect after achieving the turnover on the first line of \$100.000.
